

PURELL® Waterless Surgical Scrub Three-Application Method

DIRECTIONS FOR USE

Effective use of this product requires 2 mL per hand/arm (dispenser will automatically actuate twice dispensing 2 mL of product) and a third 2 mL application to be spread evenly on both hands up to the mid-forearm.

IF HANDS ARE VISIBLY SOILED, WASH HANDS FIRST WITH SOAP AND WATER.

STEP 1

- Remove debris from underneath fingernails using a disposable nail cleaner under running water¹
- Dry hands completely with a clean, disposable paper towel

APPLICATION 1 (Right Hand)

STEP 2

- Dispense 2 mL of product (dispenser will automatically actuate twice) into the palm of your right hand

STEP 3

- Dip fingertips of left hand into the product and work under nails

STEP 4

- Use the right hand to spread remaining product evenly over your left hand and forearm, to the elbow
- Pay attention to all skin surfaces including the nails, cuticles and web area in between fingers

APPLICATION 2 (Left Hand)

STEP 5

- Dispense 2 mL of product into palm of left hand
- Dip fingertips of right hand into the product and work under nails
- Use left hand and spread remaining product evenly over your right hand and forearm, to the elbow
- Pay attention to all skin surfaces including the nails, cuticles and web area in between fingers

APPLICATION 3

STEP 6

- Dispense 2 mL (dispenser will automatically actuate twice) of product into the palm of one hand
- Spread the product evenly over the hands, up to the mid-forearm
- Allow hands and arms to completely air dry before donning surgical gown and gloves

¹Healthcare personnel should keep natural fingernails no more than 2mm (0.08 inch) long according to AORN standards.
