GOJO Foodservice
Total Hand Hygiene Solutions

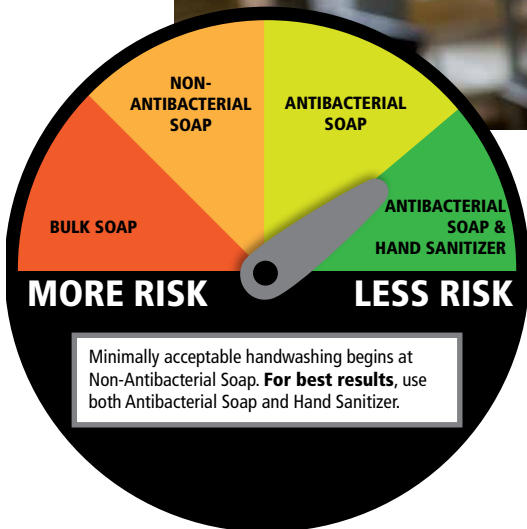

IS YOUR RESTAURANT MAKING HAND HYGIENE A TOP PRIORITY?

Restaurant operators are focused on providing great food, expert service and a clean restaurant. Yet, foodservice employees continue to struggle with handwashing and hand sanitizing due to lack of time and lack of training.

Just one outbreak of foodborne illness can be costly.

- Poor hand hygiene, inconsistent handwashing, remains the #1 contributing factor cited in outbreak investigations.¹
- Over **\$600 million** has been paid out in litigation in the past 20 years to settle foodborne illness claims.²

A complete hand hygiene regimen of hand washing AND hand sanitizing is crucial to:

- Reduce risk
- Build compliance
- Protect your brand
- Customer and employee wellness
