

**PURELL  
PEACE OF MIND™**  
From Your Kitchen to  
Your Customer's  
Hands

### Off-Premise Dining

You've shown that you care about the well-being of your customers by establishing the highest standards in cleanliness, sanitization and disinfection inside your restaurant. However, customers can't readily see those efforts when they choose off-premise dining options like take-out, delivery, or drive-thru. Offering customers PURELL® on these occasions demonstrates that you are focused on food safety and cleanliness – how and where they enjoy your food.

**86%**

of customers believe that having PURELL® Hand Sanitizer makes them feel that this restaurant is concerned with cleanliness and food safety.<sup>1</sup>

**Purell®**

# The PURELL® Off-Premise Dining Program

Show your commitment to on-the-go food safety and hand sanitizing by enhancing your customer's experience wherever they enjoy their food. Our two convenient single-use options travel anywhere to kill germs. They're perfect to use on hands before or after mealtime, and the wipes can also help to remove light soils. In addition, properly positioned hand sanitizer stations can help employees and customers maintain food safety during carry-out, curbside pickup, and drive-thru interactions. Creating a positive experience for your customer builds trust and leads to their next order.
