

Build a Healthier Campus Community

GOJO® Hand Hygiene Program for
Higher Education

Health is Essential to Learning

Hand hygiene plays a vital role in the learning community

36% of students
said illness affected their
academic performance¹

78% of students
think campus cleanliness
impacts their health²

Students suggested
hand sanitizers on
campus would improve
cleanliness and help
them learn better²

Performance suffers when illness affects
students' class attendance, their ability to study, focus
and do their best.

According to the Centers for Disease Control and Prevention, **hand hygiene is one of the most important steps in preventing illness and stopping the spread of germs to others.**

**Wherever students connect,
germs spread.**

As busy students move between dorm and classroom, dining hall and rec center, **they spread germs hand-to-hand and to objects they share.**

By placing hand hygiene at touch-points campus-wide, the solution is within easy reach of the problem.

GOJO Hand Hygiene Program...

a cornerstone of **your healthier campus**

Comprehensive approach. Simple implementation.

GOJO® Foam Soap promotes frequent hand-washing, clean facilities and sustainability efforts.

- GOJO's highly effective and environmentally preferred Green Certified hand soaps help support a clean environment with environmentally responsible packaging and formulas. Certified by Green Seal and by EcoLogo™
- Rich foam soap encourages use and keeps facilities clean

Show students that wellness is a priority. Provide PURELL® everywhere students connect.

- PURELL kills 99.99% of most common germs that may cause illness
- Our foam formula encourages use, and dispensers act as a powerful reminder

Educational and communication tools to create your custom plan.

- Posters and a brochure educate and encourage
- Press releases, newsletters and email blasts share knowledge and news

43% fewer missed school days
among university students that used PURELL along with hand hygiene education vs. students that did not.⁴

The Plan to Build Your Health

Everywhere students gather, share materials, and connect, you can promote a healthy campus attitude. Your GOJO comprehensive solution makes hand hygiene available and highly visible.

High-capacity, SANITARY-SEALED systems simplify maintenance.

Conveniently clean and sanitize, perfect for recreation centers

PURELL, America's #1 instant hand sanitizer, makes effective hand hygiene simple anywhere.

GOJO refills are SANITARY SEALED™

Why? A recent study by the University of Arizona on refillable bulk soap reservoir systems showed that 25% contained potentially harmful bacteria.³ GOJO factory-sealed refills are protected from contamination and each includes a fresh nozzle.

**This product meets the Green Seal™ and EcoLogo™ environmental standard for institutional hand cleaners based on its reduced human and aquatic toxicity and reduced smog production potential. Green Seal™ is an independent, non-profit organization that strives to achieve a healthier and cleaner environment by identifying and promoting products and services that cause less toxic pollution and waste, conserve resources and habitats, and minimize global warming and ozone depletion. Green Seal has no financial interest in the products that it certifies or recommends nor in any manufacturer or company. Green Seal's evaluations are based on state-of-the-art science and information using internationally recognized methods and procedures. Thus, Green Seal provides credible, objective, and unbiased information whose only purpose is to direct the purchaser to environmentally responsible products and services.

The EcoLogo™ Program, North America's largest and premiere ecolabelling program, provides a market incentive to manufacturers and suppliers of environmentally preferable products and services, and thereby helps consumers identify products and services that are less harmful to the environment. Established 1988, the ECP was the second national ecolabelling program in the world and is recognized internationally.
