

Help Improve Outcomes and Achieve Goals with Clinical Expertise

PURELLSM Clinician-Based Support

Get the most from your PURELL SMARTLINKTM monitoring technologies with programs that can help you achieve your hand hygiene performance goals. Our team of Clinical Specialists provide unbiased assessments of your hand hygiene program and use their unique skill sets to develop a plan that works for your facility.

A Clinical Specialist can:

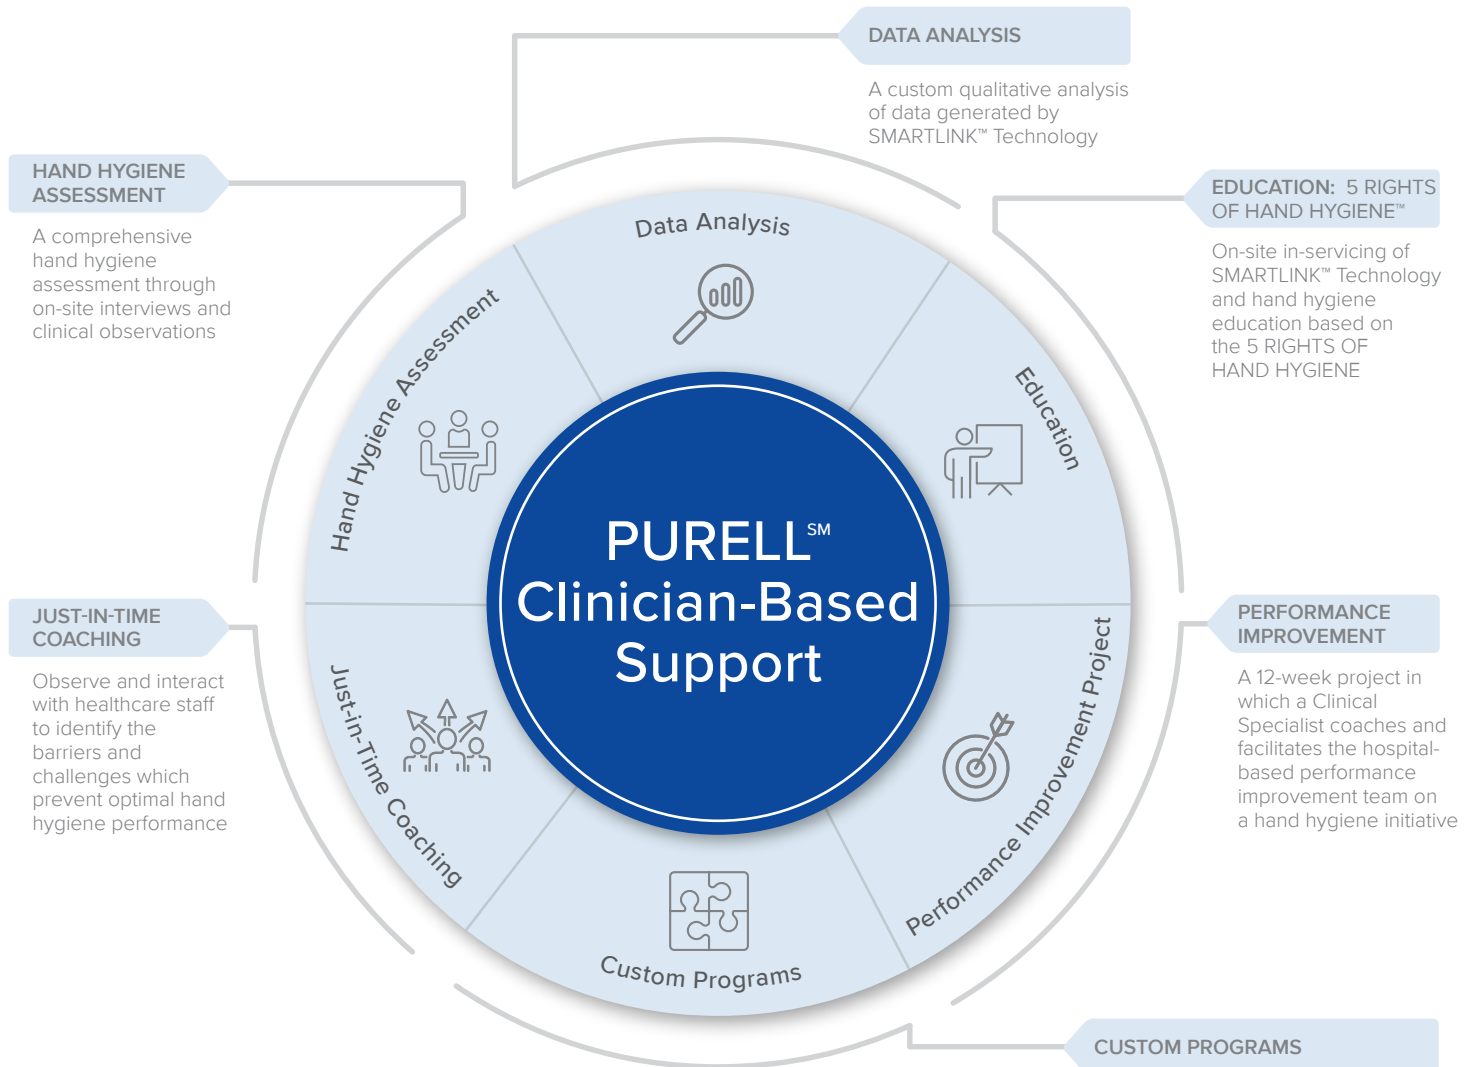

- Provide a comprehensive hand hygiene program assessment through on-site interviews and clinical observations
- Assist in setting hand hygiene goals and creating custom programs to help meet them
- Coach and facilitate a hospital-based performance improvement team
- Deliver a qualitative assessment of the data gathered by SMARTLINKTM Technology
- Observe and interact with staff to identify the barriers to hand hygiene
- Provide on-site support of the SMARTLINK Technologies and educate staff on the 5 RIGHTS OF HAND HYGIENETM
- Helps you meet Leapfrog Hospital Survey requirements
