Interactive Experiment: The Importance of Handwashing Worksheet 2

Washing your hands helps you stay healthy and keep bad germs off your hands. Always use soap and water, and wash your hands a lot, especially right before you eat. Follow the instructions below to learn the best way to wash your hands.

Wet hands under running water.

Add soap to hands.

Rub hands palm to palm.

Rub right palm over top of left hand with interlaced fingers. Repeat with left palm over top of right hand.

Rub palms together with fingers interlaced.

Rub backs of fingers to opposing palms with fingers interlocked.

Rub the soap into your left thumb with your right hand, then switch and rub soap into your right thumb with your left hand.

Rub your fingertips into your palms to clean under your fingernails. Repeat with each hand.

Rinse hands thoroughly with running water.

Dry with clean paper towels. Turn water off using towel.

Washing your hands properly takes about as long as singing "Happy Birthday" twice
